THE CHRONICLE.

THE publication of THE COMMERCIAL AND FINANCIAL CHRONICLE was commenced on the 1st of July, 1865, at the beginning of the present fiscal year, and the first volume was completed with the last number of December, 1865. A copious index of its contents will be found at the end of this pamphlet.

The CHRONICLE was not intended to supersede or come in collision with any journal published in the United States, but rather to supply a want much felt by our business community of a paper which should be

FIRST—Exclusively devoted in its editorial columns to the discussion of subjects relating to the interests of Finance and Commerce, to the exclusion of politics and other general topics.

SECOND—To furnish the most accurate information to the Merchant and Banker on all matters relating to their daily occupations—by means of thorough and well prepared reports and full statistical tables.

THIRD—To afford a weekly record, of convenient form to be kept on file, and bound at the end of each volume, (half-yearly) and so furnish a complete history of Commercial and Financial transactions, not only for present use, but also for future reference.

To accomplish these objects THE CHRONICLE was modeled after the well known English paper "*The Economist*," and is essentially unlike any other paper published in this country.

CONTENTS.

For the convenience of subscribers, and to increase its usefulness as a record The CHRONICLE is divided into heads or departments, under which the contents of each number are arranged. They are as follows:

1st—Editorial Articles.	8th—The Commercial Times.
2d—Literature.	9th—Wholesale Prices Current.
3d—Foreign News.	10th—The Railway Monitor.
4th—Commercial and Miscellaneous News.	11th—A table of Railway and Miscellaneous Bonds.
5th—A Banker's Gazette.	12th—A table of Railway and Miscellaneous Stocks.
6th—A table of Sale prices at the N. Y. Stock Exchange on every day of the week.	13th—The Insurance and Mining Journal.
7th—A table of United States, State and City Securities.

First—EDITORIAL ARTICLES—prepared with great care by competent writers, upon subjects relating to **Finance, Commerce,** and other questions of general interest to business men. It is the object of the publishers to make the CHRONICLE a safe, trusty, useful guide not only to the business man, whose fortune depends on the accuracy of his information, but to Statesmen and others who direct the course of our commercial legislation.

Second—LITERATURE.—Under which will be published notices of new books.

Third—FOREIGN NEWS—As the foreign trade of this country, from obvious causes, is assuming increased importance, it appeared desirable to secure more authentic and accurate reports of such **foreign markets** as are interesting to our import and export merchants. It is with great pleasure, therefore, we are able to announce that we have secured the services of one of the editors of the leading London journal—*The Economist*—who will hereafter, in a weekly letter, report these markets specially for the CHRONICLE, besides furnishing such other facts and information with regard to commercial and financial affairs as may be from time to time of interest. This arrangement will enable us to give in each issue the freshest reliable European intelligence. The first letter will be published about the middle of January.

Fourth—COMMERCIAL AND MISCELLANEOUS NEWS—Under which head are published regularly the total of imports and exports for the week; monthly statements of the Exports of Treasure—of the Operations of the Mint—transactions at the Assistant Treasurer's Office—daily highest and lowest prices of Gold, and all news of interest to merchants and bankers.

Fifth—THE BANKERS GAZETTE—Giving a list of all **Bonds lost or stolen** for the week; a review of the **Money Market, Stock, Gold, and Foreign Exchange Markets** for the week; **Bank Statements** for the week, with comparative statements; progress and condition of **National Banks, Foreign Banking,** and a **Bank Stock List**, with the amount of capital, par value, dividends, when payable and last paid, and market price bid and asked.

Sixth—A TABLE OF SALE PRICES, on each day of the week, at the New York Stock Exchange; of Stocks and Securities sold.

Seventh—A TABLE OF NATIONAL, STATE AND CITY SECURITIES, giving the amount outstanding, interest rate and when payable, time when principal is due, and market price bid and asked.
